Lidalco AB - Conflict Minerals Policy

There has been increased awareness of violence and human rights violations in the mining of certain minerals from a location described as the "Conflict Region", which is situated in the eastern portion of the Democratic Republic of the Congo (DRC) and surrounding countries. Companies around the globe have been requested to practice reasonable due diligence with their supply chain to assure that specified metals are not being sourced from mines in the Conflict Region.

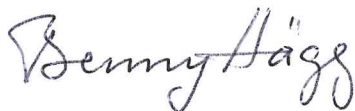

Lidalco AB supports this initiative and has either obtained, or is in the process of obtaining, information from our suppliers concerning the origin of the metals that are used in the manufacture of their products. Based upon information provided by our suppliers, Lidalco AB does not knowingly sell products where the metal used in the production comes from the Conflict Region.

Hoping to have informed you properly we remain,

Best regards,

Lidalco AB

Benny Hägg / MD
